

Bryan Linebaugh

2048 Cherokee, Tustin, CA 92782 | Cell: (949) - 439 - 8217 | blinebau@uci.edu

Objective

- Upcoming BSSE graduate seeking an internship position in the field of software engineering and development.

Technology Overview

- Java, C++, HTML/CSS, JavaScript, Ruby, Ruby on Rails Framework, Windows, Linux (Ubuntu)

Education

PURSUING BACHELOR OF SCIENCE, SOFTWARE ENGINEERING | 2015- | UNIVERSITY OF CALIFORNIA, IRVINE

- Dean's Honor List, Winter 2016, Spring 2016; GPA 3.6
- Major: Software Engineering
- Past Project: Project in HCI; Patient Administration System for an Exergame for Leukemia Patients
 - *Project Scope:* Working as a part of a seven-member team to develop an administration system for an exergame focused on supporting the rehabilitation of recovering leukemia patients. The exergame is currently being developed by a group of UCI Researchers, one of which is the Project Sponsor. The system is to be developed as a web application used by medical staff and physical therapists to adjust rehab parameters and monitor patient progress.
 - *Project Tools:* Java, Java Server Pages, MongoDB, Spring Framework

Related coursework:

- Java & C++ Programming and Data Structures
- Object-Oriented Software Design
 - Application Design
 - Architecture and Implementation Design
- Web Applications (Ruby on Rails)
- Software Engineering Process and Project Management
- Assembly Language Programming
- Human Computer Interface Design
- Java Network Programming

Skills & Abilities

- Confident in known technologies and motivated to learn and master new technologies
- Demonstrated success in self-directed and group driven work environments
- Proactive work methodology and effective team member in past projects; willingness to take leadership role in team environment

Experience

FLEX-TEAM MEMBER / CASHIER | MACY'S | NOVEMBER 2012 – JANUARY 2013 (SEASONAL)
